SUMMARY

I recently graduated with a bachelor’s degree in Information Engineering from Gadjah Mada University in 2024. My studies and personal interests have provided me with hands-on experience in software development, particularly in fullstack website development with Node JS. I am adaptable and thrive in collaborative environments, and I value honesty and responsibility in my work.

INTERNSHIP EXPERIENCE

PT WIDYA INOVASI INDONESIA – Yogyakarta, Indonesia

Frontend Intern, MSIB Batch 6 (February – June 2024)

- Developed APIs using Strapi.
- Implemented designs into functional code.
- Managed API integrations.

UNIVERSITAS GADJAH MADA – Yogyakarta, Indonesia

Simaster vNext Mockup Team (September – December 2023)

- Created mockup designs based on user requirements for a new campus information system.
- Assisted the mobile front-end team with UI slicing using Flutter.

PT GRAPHIE GLOBAL INTERAKTIF – Jakarta Utara, Indonesia (remote)

Front-End Web Developer Intern (January – April 2023)

- Contributed to a Web3 project, including the development of an NFT marketplace with smart contracts using Solidity on the Ethereum network, and front-end components with ReactJS and web3js.
- Supported the development of a gaming community platform, focusing on front-end tasks using HTML, JavaScript, jQuery, and CSS (Sass).

DTETI FT UGM - Yogyakarta, Indonesia

Lecturer Assistant (June 2023 – June 2024)

- Supported lecturers by managing online learning platforms, announcing information, and grading student work.

Lab Assistant of Information Engineering Junior Project (August 2023 – December 2023)

- Assisted with laboratory activities for Junior Projects involving desktop application development with C#, .NET, PostgreSQL, and Visual Studio.
- Graded students' work.

Lab Assistant of Fundamental Programming (February 2022 – June 2022)

- Supported laboratory sessions for Fundamental Programming using C++.
- Provided advice to students, reviewed practice modules, and graded assignments.

NON-WORK EXPERIENCE

GELANGGANG EXPO UGM - Yogyakarta, Indonesia

Information Technology Staff (May 2021 – August 2022)

- Developed a website for Gelanggang Expo to showcase profiles of Student Activity Units (UKM).
- Designed the user interface using Figma and implemented the UI with TailwindCSS, ReactJS, NextJS, JavaScript, and TypeScript.
- Managed data input and review in JSON format.

NESCO UGM 2022 - Yogyakarta, Indonesia

Website Developer Team (November 2021 – June 2022)

- Designed and developed a competition website to enhance participant engagement, using Figma for design and ReactJS with TailwindCSS for coding.
- Collaborated with the development team using Git.

PORSENIGAMA 2021 - Yogyakarta, Indonesia

Website Designer Team (August 2021 – November 2021)

- Designed the website interface using Figma. The website’s purposes to give detailed information about the annual Sport and Art Competition (“Pekan Olahraga dan Seni”) in UGM.
- Collaborated with developer team.

NIGHT LOGIN UGM – Yogyakarta, Indonesia

Night Login Website Developer Community Core Team (January 2022 – June 2022)

- Managed bi-weekly training sessions for community members.
- Brainstormed and defined concepts and technical requirements for internal projects.

KOMUNITAS MAHASISWA TIK UGM - Yogyakarta, Indonesia

Secretarial Staff (January 2022 – November 2022)

- Managed the participants’ data for GEMASTIK 2022, an annual event held by Pusat Prestasi Nasional.

Member of Aliansi Siber Gajah Mada (March 2021 – January 2022)

- Participated in cybersecurity workshops.
- Developed scripts for cryptography tasks using Python.

EDUCATION

UNIVERSITAS GADJAH MADA

Bachelor of Information Engineering (2020 – 2024)

GPA: 3.57/4.00

STATE 2 SENIOR HIGH SCHOOL SEMARANG (2017 – 2020)

Science Class (2017 – 2020)

Grade: 91/100

ACHIEVEMENT

1ST WINNER I/O FESTIVAL 2024 (2024)

Undergraduate Web Development Category

- Led a team of three.
- Built web application to maintain healthy lifestyle, with five main features: BMI and RDA calculator, calorie calculator, diet program recommendation, healthy recipe forum, and daily workout challenge.
- Result can be accessed [here](#).

SKILLS

- Technology: C++, C#, HTML, CSS, JavaScript, NodeJS, ReactJS, NextJS, TailwindCSS, MERN, Figma, Git, VM Deployment.
- Soft Skills: Teamwork, Collaboration, Communication, Leading.
- Languages: Indonesian, English
